#### PUBLIC LANDS LEGISLATION

Mr. CAMPBELL. Mr. President, today I introduce five pieces of legislation affecting Federal lands in my home State of Colorado.

The purpose of these bills is to facilitate the process of consolidating our Federal lands into contiguous blocks which makes their management more efficient and less costly.

Much of the land over which the Bureau of Land Management and the U.S. Forest Service has management authority contains numerous inholdings which may have been old mining claims or other privately owned parcels. This patchwork ownership often creates management problems. For example, a particular parcel may block the public's access to other Federal lands. The presence of an inholding may limit the tools which can be used by the Federal agency to manage the land. If a controlled fire is needed to clear underbrush or stop the spread of insects, the presence of private land in the midst of the area may well preclude the use of fire as a management tool. All these considerations require much more time, and adds to the expense of caring for Federal lands.

Whenever an owner of these private parcels willingly offers to sell or exchange their lands, it is important that the Federal Government is able to accomplish these transactions to increase
